

REFeree'S REPORT: SUMMARY SHEET

International Journal of Computer Applications (IJCA) – ISSN 0975-8887
<https://ijcaonline.org>

Paper title:
Performance Evaluation of Pre-Trained Models to Classify Citrus Fruit Diseases

#	EVALUATION CRITERIA	Score
1	Relevance of Topic	4
2	Scholarly Quality	5
3	English Usage	4
4	Use of Theory	6
5	Novelty and Originality of the idea	4
6	Technical Content and Correctness	5
7	Conclusions	5
Total Score % (out of 7)		67.35

Recommendations	
☐ ACCEPT	Accept (without qualification): 75-100%
☒ ACCEPT WITH MINOR REVISIONS	Accept with minor revisions: 55-75%
☐ ACCEPT WITH MAJOR REVISIONS	Accept with major revisions 35-54%
☐ REJECT	Reject: Below 35%

The above are indicative score ranges.

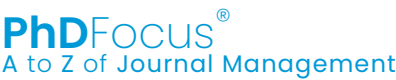

Referee Comments:

1. The **title** of the paper needs to be revised to better reflect the core contributions and significance of the study. The current title is too general or lacks specificity, making it less impactful.
2. More comprehensive evaluations are needed.
3. To further strengthen the paper, a more extensive evaluation considering various datasets or scenarios would enhance the research.
4. The **text labels in all the figures** used in the paper **are unclear**. Authors must develop original **image/figures** with **high resolution** for proper rendering of the final published paper and should not distort on zooming. The text labels in the images must be clearly visible.
5. **The research paper should be written in perspective of third person.** Words such as **'I' 'we' 'our' etc.** needs to be avoided.
6. The paper does not comply with the IJCA paper template. The **presentation** of the paper needs improvement. Different **fonts** and sizes are used throughout the paper. The **headings and sub-headings** are not numbered according to the template. Use IJCA paper template for final paper.

Final Checklist for authors:

- Perform Spell and grammar check.
- No word breaks at the end of lines.
- References appear consecutively in the paper.
